IE1005 COMPUTATIONAL THINK TO PRO

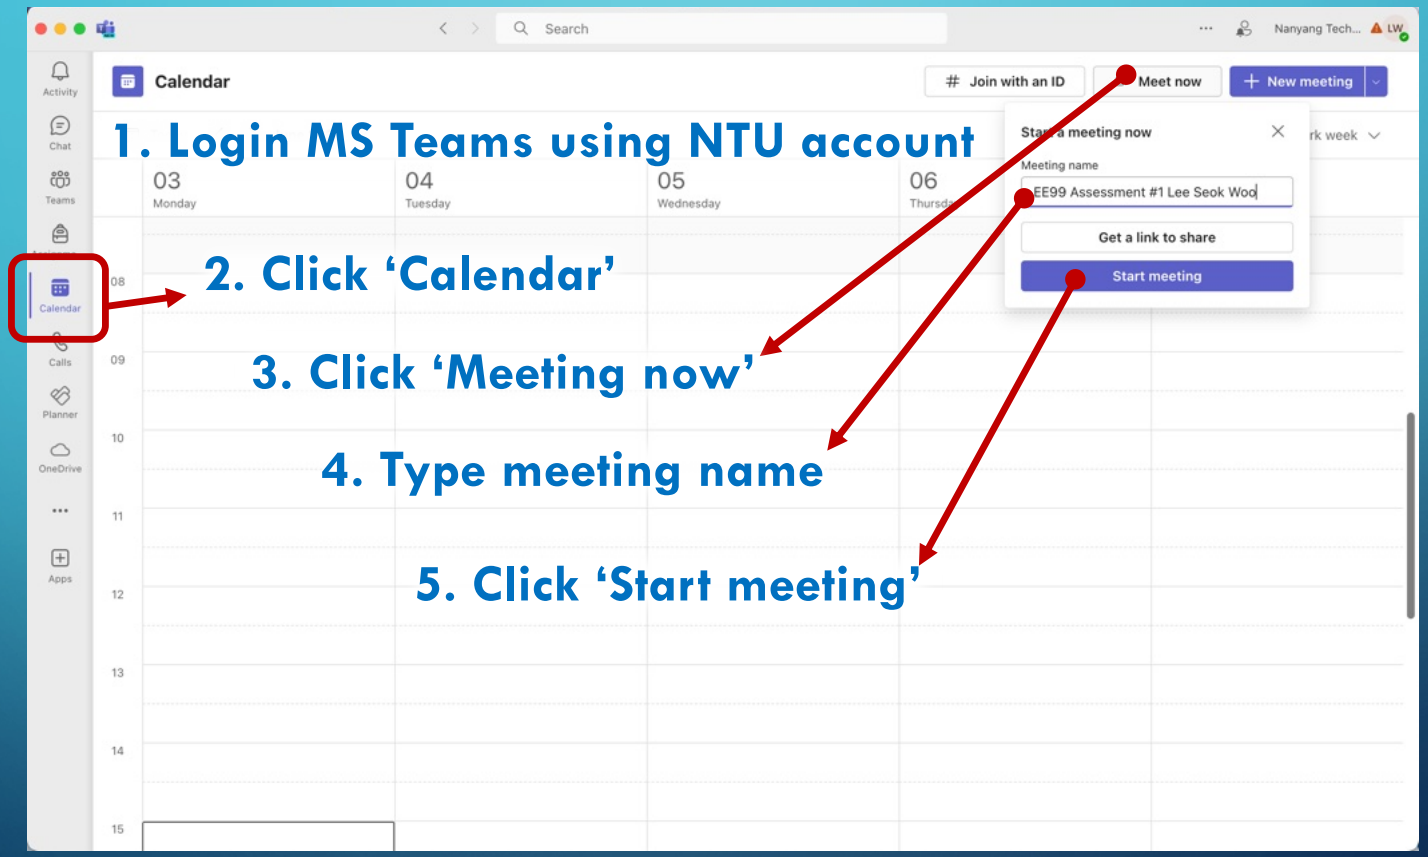

PRACTICAL ASSESSMENT VIDEO RECORDING INSTRUCTION

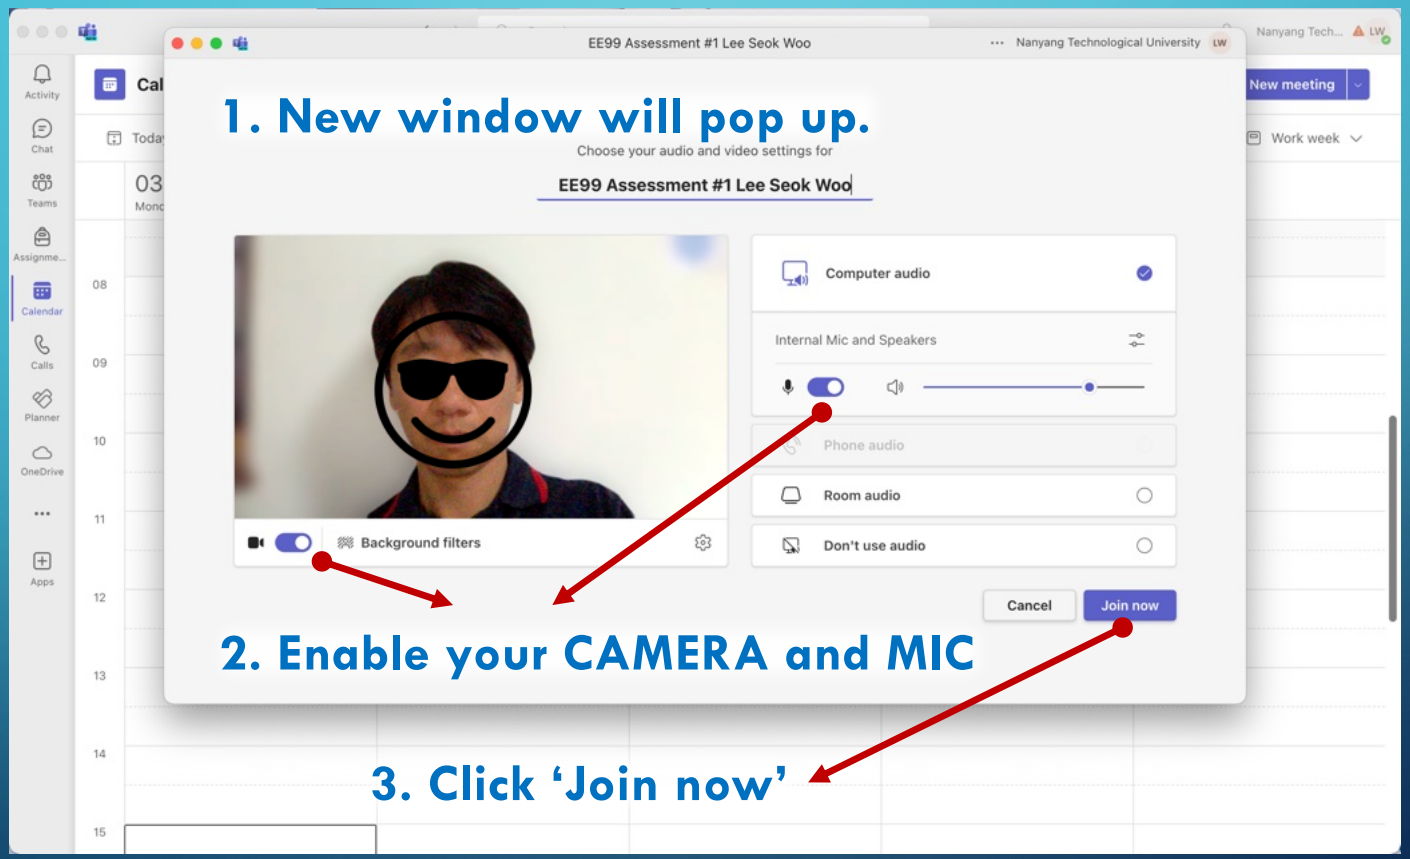

A/P LEE SEOK WOO

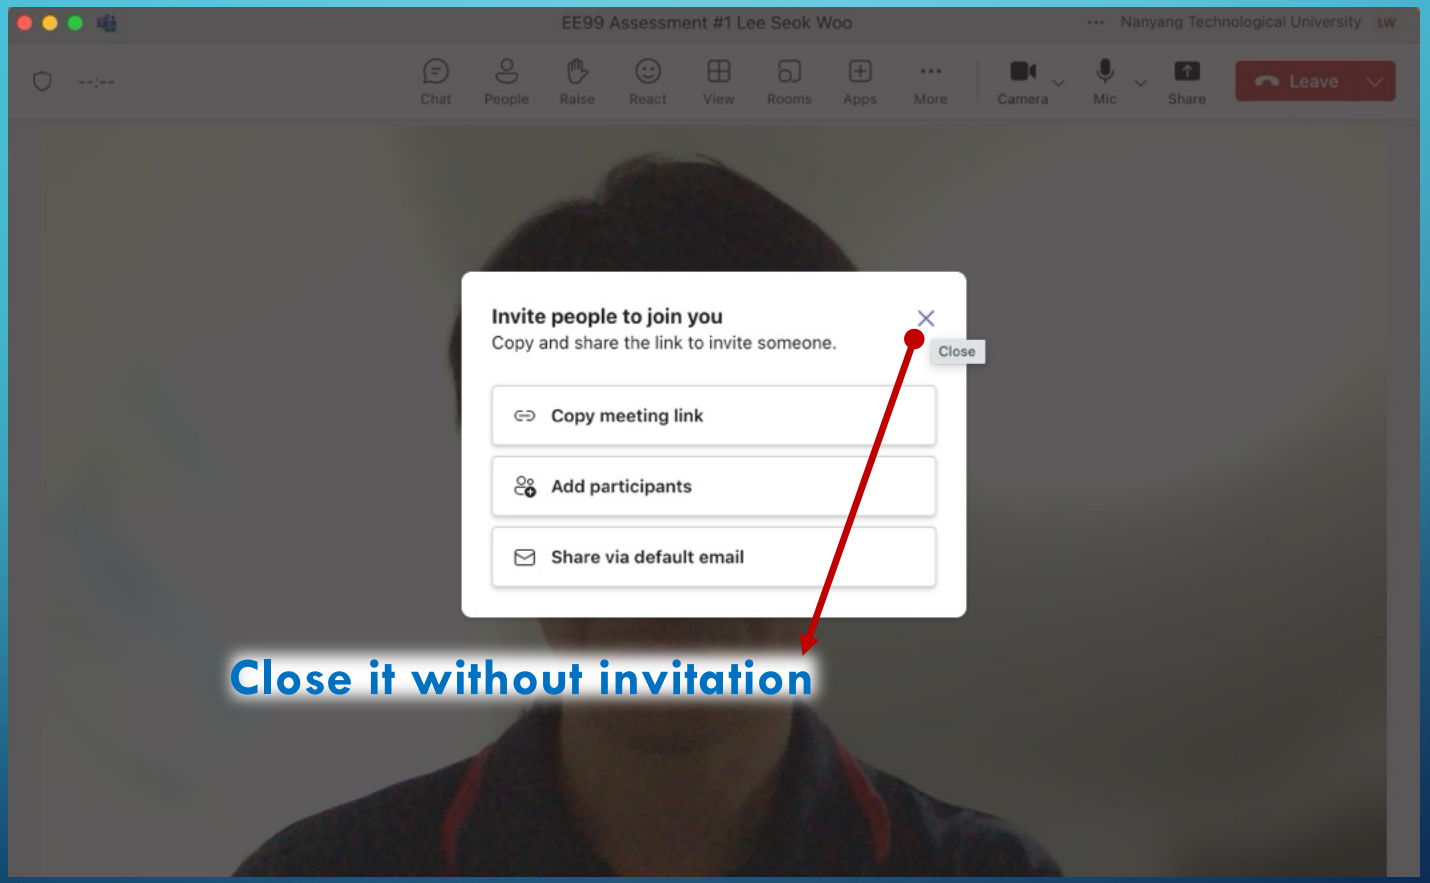

KEY POINTS OF ASSESSMENT SUBMISSION

1. Submission goes through NTULearn **TUTORIAL** website
2. Submit C file of your code
3. Submit video recording of code explanation: Use MS Teams
    1. Length of video: Keep the required length in the question
    2. Show your **code** and your **face** together
    3. Use mouse cursor to indicate the statements where you are explaining
    4. Reasonable quality to recognize the code
    5. **Demo the execution of your program.**
    6. Widely used format (e.g. mp4, mov) without special encoding

INSTRUCTION OF RECORDING USING MS TEAMS

EE99 Assessment #1 Lee Seok Woo
Nanyang Technological University
1. New window will pop up.

```c
/* EE99 Assessment #1
 * Name: Lee Seok Woo
 *
 * Converts hours to minutes.
 */

#include <stdio.h>
#define HR_TO_MIN  60       /* number of minutes in an hour */

int main(void)
{
  double hours,                 /* input - in hours */
         minutes;               /* output - in minutes */

  /* Read in the hours. */
  printf("Enter the time in hours > ");
  scanf ("%lf", &hours);

  /* Convert hours to minutes. */
  minutes = hours * HR_TO_MIN;

  /* Display minutes. */
  printf("The time in minutes is %lf\n\n", minutes);

  return 0;
}
```

1. Open your code

1. Click ‘Share’

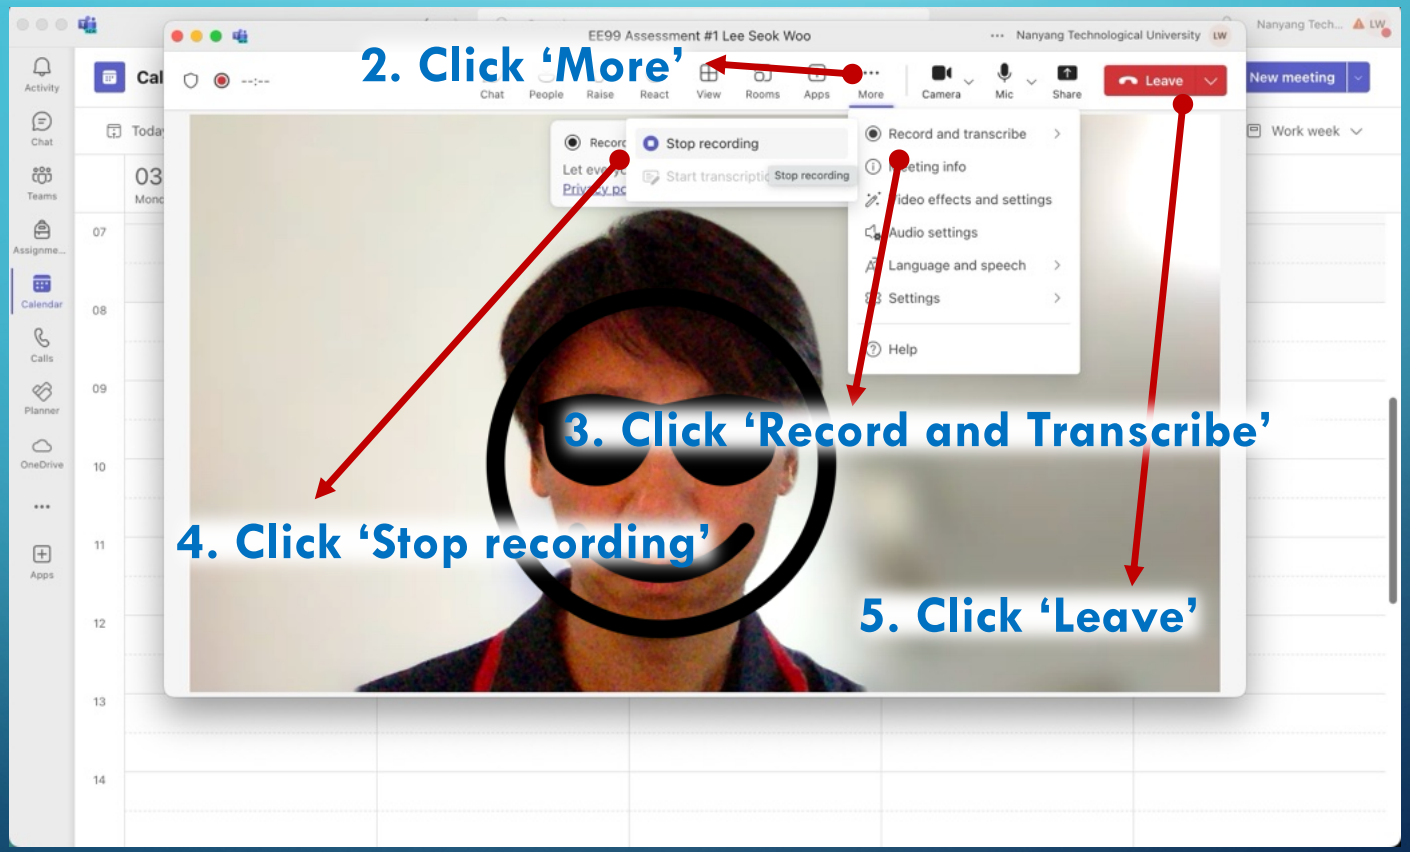

2. Click ‘Side by side’

3. Click ‘Screen’ or Window upon your preference

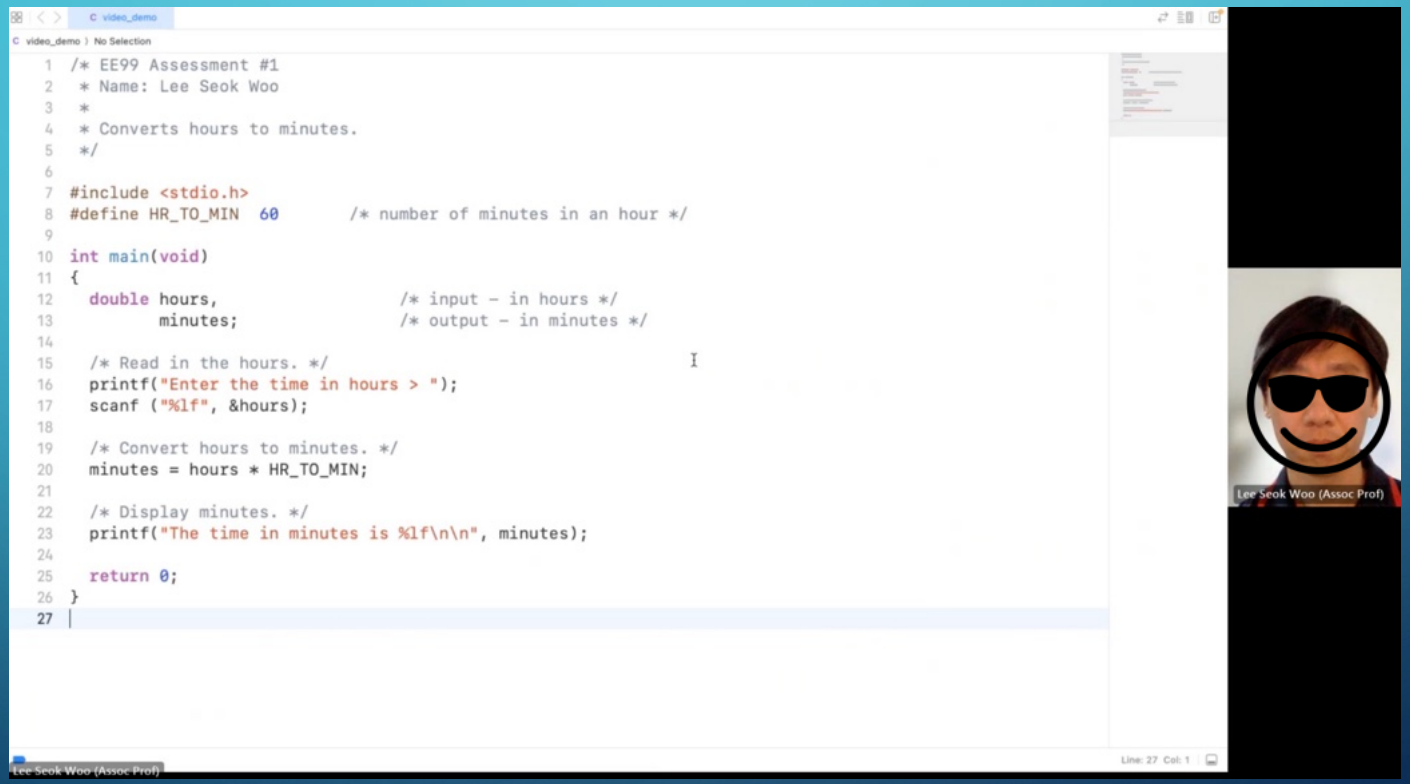

4. Move to the window of your code and explain it with mouse cursor

1. After explanation,
   Click ‘Stop sharing’
   and come back to window of MS Teams

Find your file in Onedrive -> Recording folder

Your video will be like below.
